MR. ALGER is in China. Let him count the victims of Cagan's embolism, twined, buried on the Isle they went to save.

The receipts of the government for the half of March exceeded the expenses by \$5,000,000. Dingley law or revenue stamps?

No consideration will be given to the suggestion of a ticket made up of McKinley and Reed until the glad day comes when the tail shall wag the dog.

It is a matter worthy of note that those who declare Mr. Belmont in the right are those with whom Mr. Belmont voted in 1896.

SILVER Republicans who voted for McKinley safely because he stood for platform pledged to bimetalism, should attend the meeting of Bimetallic Leagues at Louisville on May 9, 10, 11.

IN the promotion of stamp duty Hawkins in the division of stamps, Collector Stamp, of the Fifth District, pleases that large element which is without influential political "pull" but which has the power of voting.

Mr. Hawkins is a gentleman—honest, patriotic, worthy, popular. His only fault is his position as his last friend of all parties recognize him as an ornament to his party and to his profession.

In his case money and a clean character have received merited recognition, and Collector Sapp may rest assured that he has made no better appointment since he received his own commission.

THE Louisville Dispatch was started as the people's paper, by the people's money, and they had a right to expect that it should be conducted in an impartial manner so far as the issue of Democratic candidates are concerned. But certain candidates and certain newspapers have waged a war on the Dispatch, and when that paper responds to the first law of nature, to preserve its very life, it is maligned and accused of having no business fighting other good Democrats. As the Lord is our judge we believe the Dispatch has played false to no Democrat, and most of all has been faithful to no friend. If to-day it is compelled to take sides in the beaten State Democratic fight, it is not of its seeking. It would be both a knave and a fool to meekly submit to the damaging attacks of designing men or to turn its back on those who, in its hours of need, have been and are still its friends.

Led by the inevitable bias of its mighty rival, the Courier-Journal, those who could not use the people's paper for their private ends have turned traitor to the Dispatch and now seek its destruction. It is the only hope of Democracy in Kentucky, and the platform on which it stands and the truths it so eloquently and fearlessly preaches by day, make it dearer to the plain people of Kentucky, who seek no office than all the ambitious candidates who for spite and revenge would ruthlessly wreck it.

May the people's paper, their day star and guide, their only political hope in Kentucky, the Louisville Dispatch, be securely established, a perpetual blessing, though every trait beneath its feet be the suppler of blasted, evil hopes, no matter whose they are!

PROGRESS, the great keystone of Republicanism is slowly crumbling. That party is becoming thoroughly alarmed because of the rapidly increasing membership of trusts. The fact that the trusts are detrimental to the best interests of the whole people is not considered by the Republicans, but the alarm is caused by the fact that the increase in the trusts promises to work an injury to the Republican party, which organization has bent its best energies to the promotion of trusts.

And as long as the trusts were beneficial to that party because of liberal campaign contributions the Republican organs saw in those trusts nothing alarming or detrimental to the public welfare.

DEMOCRACY TRIUMPHED

Monday in the hot Magorally contests at Cleveland, Dayton, Akron, Toledo, Urbana, Newark, Portsmouth, Springfield, Hamilton and other leading cities in Ohio. The Republicans carried off the large cities only Cincinnati and Columbus. Which way is the wind blowing, did you say?

In the Democratic State Convention June 21, the counties of the Eighth District will have the following representation, on the basis of one delegate for every fraction of 200 votes cast for Bryan, or one for every fraction of 100 or more votes cast for McKinley.

Boyle, 6; Garrard, 6; Lincoln, 8; Mercer, 9; Madison, 14; Rockcastle, 4; Shelby, 13; Spencer, 5.

THE Ohio Bimetallic League, composed of the bimetallic leagues in Ohio, Indiana, Illinois and Kentucky, will be held in Louisville May 9, 10 and 11.

W. J. Bryan, Geo. Fred Williams, of Boston, Chas. Towne, of Minnesota, and other noted silver men will attend the meeting. It will be the largest and one of the most important political gatherings ever held in Kentucky.

WHENEVER a manufacturing establishment restores the wages of its employees to what they were a year or two ago, Republican papers announce the fact in big black head-lines as an increase of wages. Every week the laboring men who are thrown out of employment by the organization of some new trust will greatly exceed those who have had their wages restored by some tariff protected employer.

Georgetown Times.

If we properly understand the situation, Chairman Wingate's refusal in the Boyle county Legislative convention, to side with anything that looked like a trick, reflects credit upon that gentleman, and indicates a proper conception of right and duty. When friends of candidates seek through malicious charges to gain unjust advantages the will of the majority or the rights of individuals are thwarted, and party harmony destroyed. It would please far-minded citizens if there were more Wingate Chalmers everywhere. In Boyle, as elsewhere, may only the best man win.

ANENT BRYAN'S chaotic refusal of Belmont's invitation to the Jefferson banquet, the Lexington Globe says "some people may blame Mr. Bryan but Mr. Bryan is right, however, as there never can be any reconciliation between Gold Democrats and true Jeffersonian Democrats who stick to constitutional money—gold and silver. There is no middle ground upon which they could gain unjust advantages the will of the majority or the rights of individuals are thwarted, and party harmony destroyed. It would please far-minded citizens if there were more Wingate Chalmers everywhere. In Boyle, as elsewhere, may only the best man win.

Honor to a Richmond Physician.

On an outside page of to-day's CLIMAX can be found a lengthy notice of the honor that has been conferred upon one of our best known physicians, Dr. H. R. Gibson, by the Board of Trustees and Faculty of the Philadelphia Medical-Chirurgical Society. The honor carries with it the privilege of pursuing, free, any course of study in the institution and implies the high standing of the recipient in his profession. The article will be read by the Doctor's friends with much pleasure.

Horse Show.

The usual April Court Day Horse Show was quite small compared with previous exhibitions. The spectators were given an opportunity to inspect the superb saddle stallion, Lyan Boy, whose date and pedigree appeared in these columns last week. Also that grand animal, Legal Test, 2:29 1/4, by Electioneer, property of Mr. B. H. Neale. (See ad. elsewhere in CLIMAX.) Besides these were Dr. H. R. Gibson, 2:29 1/4, and two fine colts, Wade Walker and Spring Steel, Woodford Squirrel, owned by Irvine Astill; W. C. Gormley's Haxhall; H. Kelley's Peavine. Though a small show these formed a very choice selection.

Won by C. U. Debaters.

The debate between Central University and Georgetown College, which took place on Friday night, April 7th, resulted in a victory for the former. The subject was Expansion and Messrs. Tadlock and Abbott, of C. U., had the negative side. We commend the young gentlemen upon their victory. As they will be called upon to meet Centre College in the final debate, we trust they will be equally successful. As a victory in debate is superior to one in oratory, we believe, more attention should be devoted to the cultivation of argumentative powers of the members of the literary societies. These annual inter-collegiate contests will soon place debating in the proper rank.

Stalling News For Farmers.

In a speech at Frankfort on Monday Colonel James Andrew Scott, Democratic candidate for Attorney-General, made the following statement that is of sensational interest to farmers in Kentucky:

"I met a representative of the Tobacco Trust last week, who told me that tobacco farmers will be paid only five cents a pound for their crops. I told him that tobacco could not be raised for that price. He said they would be compelled to raise it at that price, or else the trust would buy land, import cheap Italian labor and raise its own tobacco. He further told me that the Coffee Trust had done the same way with the coffee planters and succeeded, and the Tobacco Trust would do like wise. I think it time for the people to organize to fight the trusts."

Important Bank Tax Cases Decided.

As this city recently accepted a \$15,000 cash compromise for old taxes from the base of this city (including the old Second National), Richmond is old that much better off than if she had awaited the decision of the Supreme Court of the United States. That tribunal on Monday decided in favor of the national bank at Owensboro, which settles precisely the case of the national banks in other cities of this State. The decision is against the city, but the money secured from the different national banks, as compromise payments, will not be refunded to the banks, and it is in this phase of the case Richmond may be congratulated. It was a part of the agreement made that, no matter how the decision should be, this city was not to be required to pay back any of the taxes collected amounting to \$15,000.

In brief the decision is, that national bank franchise cannot be taxed, but those of State banks can be.
